KANSAS GOVERNOR READY FOR "CALL"

(By Associated Press.)
Grant Reed, known as Jonathan M. Davis, "dirt farmer" governor of Kansas, is ready to contest for the democratic nomination for the presidency if the call comes to him from Kansas democrats.

Speaking at a seventh district democratic rally here last night, the governor gave his answer to political friends in the state who have urged him for the presidential nomination.

Governor Davis declared that while he did not "seek" the nomination, he would willingly abide by the wishes of his friends, should they desire that he "enter the larger field of running for president."

FORMER EDGERTON COP SEEKS PAROLE

Popowski, Serving Sentence
for Robbery, Is Denied
Pardon.

Stanley Popowski, former motorcycle speed cop of Edgerton and Stoughton, who completely in the DuFrane warehouse robbery at Fond du Lac and subsequent confession, led to the conviction of 10 men, has been recommended for parole by Governor Jean J. Laine, in his most recent list.

Popowski is now serving a four year sentence in state prison at Waupun for burglary of postoffices in Fairchild, Wisconsin Rapids, and Augusta, having been sentenced from Eau Claire county on Dec. 3, 1921. His brother, Joseph, served a year in Waupun for his part in the robberies. The wording of the governor's recommendation is: "Recommended case go through regular parole channels."

Brothers Known Here.
The Popowski brothers are well known in Rock county. Another brother, John, served a six month sentence in the Rock county jail in 1921 for selling liquor, being released Dec. 22.

Stanley Popowski began his life of crime at Edgerton, after serving as motorcycle policeman during the summer of 1918 or 1919. He then started in the milk business and attention of authorities was several times directed toward raids on his place. Finally a copper still was seized, but Popowski was not present at the time. He left town and was later arrested at Fond du Lac and brought to Edgerton, charged with selling mortgaged property.

He made settlement after arraignment in Justice D. W. North's court, going to Milwaukee and coming back with a large roll of bills. The DuFrane warehouse robbery was on Jan. 12, 1921, and it was at this time that Popowski was absent on a trip to Milwaukee.

North Solved Robbery.
Former Justice North, who solved the DuFrane warehouse robbery after it had baffled the Fond du Lac police for a year, by securing a confession from Joseph and Stanley Popowski, traced their movements up and down Wisconsin and Minnesota. The two men were brought from Waupun and testified at the trial of the liquor ring at Fond du Lac. The cases of two of the convicted men are pending in the Wisconsin supreme court.

Mr. North said Thursday when informed by the Gazette of the intended parole of Popowski: "He is a bad lot." What will be done as the result of the conviction of Popowski on the DuFrane warehouse robbery which he and his brother executed, is not known.

Vienna — Max Thorek, the scientist who has become famous for his experiments in transplanting animal eyes, is also an expert in transplanting glands. Screen Talk

Jacqueline Logan is appearing just now with Percy Marmont in Kipling's "The Light That Failed." She will shortly appear in an entirely different role in "Planning Barriers." In this latter picture she does some thrilling airplane flying.

Samuel Goldwyn has purchased the motion picture right of Joseph Hergesheimer's novel, "Cythara," which will be pictured by George Fitzmaurice. Mr. Fitzmaurice has been in Havana looking over locations, as the story calls for a number of scenes in that city. Work on "Cythara" will commence shortly.

An interesting production was recently made in England. It was the film version of "The School for Scandal." Miss Queenie Thomas was cast as Lady Teazle and John Stuart as Charles Surface. The Luxor Picture Corporation advocates the taking of a picture in the locale of the story. The house that Sheridan described as being Lady Snodgrass's was restored, careful attention was given to costumes and a coach was made of the 1777 pattern found in a Birmingham museum. The sedan chair in which Lady Teazle was carried was the replica of one in the British museum.

Economic conditions are causing the film stars under contract to be "farmed out" to other companies. Goldwyn has done it with two, First National with one, and Paramount with two. Percy Marmont and John Stuart are with independent companies. Conrad Nagel is with Distinctive and Mae Busch with First Fox.

James Kirkwood and his wife, Lila Lee, are to be co-starred in four features at the Times. The first of these will be "The Painted Woman," which has been virtually completed. Kirkwood's two last pictures are "Human Wreckage" and "Ponjolo." Lila was Thomas Melcham's leading woman and played opposite Rodolph Valentino in "Blood and Sand."

Pola Negri has finished "Shadow of Paris" for Paramount and is to take a short vacation at one of California's scenic resorts. She plans to visit the Hawaiian islands later.

May McAvoy and Glenn Hunter insist that they are not engaged. May is interested in her "art." As soon as "The Enchanted Cottage," in which she is featured opposite Richard Barthelmess is completed, she and her mother are to go to Italy.

George O'Hara is to drop his "Fighting Blood" gloves for the lead in three dramatic features which Robertson-Cole will produce.

Larry Trimble returned to Hollywood from New York recently, whither he journeyed to deliver "The Love Master," the new Primble-Murfin production that is starring Strongheart, to First National.

Don't Strain Eyes, Convalescents Warned

New York — Convalescents should take care not to strain their eyes by over much reading, and kind friends would do well not to send them many books to persons recuperating from the effects of a severe illness, according to the National Committee for the Prevention of Blindness. There is danger of the convalescent subjecting his eyes to such severe strain by attempting to read all the books sent him, as to result in his vision being permanently weakened.

DOUDNA TO TALK TO TWILIGHT CLUB

"Romance of Wisconsin's History" Will Be Subject Next Tuesday.

"Romance of Wisconsin's History" is the subject and E. G. Doudna, secretary of the Wisconsin Teachers' association, the speaker, for the second meeting of the Twilight club to be held at the Y. M. C. A. Tuesday night.

More than a year ago Mr. Doudna spoke for half an hour on this subject at a meeting of the Janesville Rotary club and it proved most interesting. Before assuming the secretaryship of the teachers' association a year ago, Mr. Doudna was principal of Wisconsin Rapids schools.

Motion Made to Dismiss Cates

Motion for the dismissal of the state's case against H. L. Cates, charged with driving while intoxicated, has been made before Judge J. L. Maxfield in municipal court, but the judge has not ruled on it. The case was made by District Attorney S. G. Dunwiddie on the grounds there is not sufficient evidence to convict the man on this count.

Cates was arrested after his wife had complained that he was intoxicated, chased her into a neighbor's house and then drove away in his car, returning shortly afterward. Should the state charge be dropped, it is possible a city charge of intoxication in a public place will be filed against him by City Attorney Roger G. Cunningham, as it is said the police officers who arrested him are able to testify to this.

NEW WISCONSIN SONG WRITTEN BY FORMER RESIDENT

BURLEIGH A. ALLEN.

A new Wisconsin song, "My Heart Is In Wisconsin," has been written by a former Janesville resident, Burleigh A. Allen, now of Meladun, Wis. Mr. Allen is not a musician in the strict sense of the word, but plays tunes on a telephone key for the Chicago, Milwaukee & St. Paul railroad at McFarland. He held a similar position in Janesville for five years and in 1917. The words and the music for the new song were both written by him. His wife is a Janesville girl. The chorus is as follows:

"My heart is in Wisconsin, where a wondrous river flows,
Where the pine trees are abundant and the stately white birch grows,
A paradise of lakes and streams, of dells and wooded hills,
Of farms and growing cities, a state whose beauty thrills."

In cold countries where snow prevails during a long winter many animals change the hue of their coats to a white tint. The case of the weasel is especially curious; it retains its brown coat until the first snow appears, and then whitens in a few hours.

Perhaps the most important development, however, in the national political situation will follow the delivery by President Coolidge on Thursday of his message to congress. While the document has been distributed in confidence to the newspapers of the country and is to be held until released for publication when Mr. Coolidge begins speaking, many members of the senate and house have read the message and are talking about it among themselves.

Reaction Is Waited

Their comment cannot be published until after the message is released to the public. The message will create a considerable amount of talk and may even affect the wavering lines of republicanism in congress, either making the cleavage wider or tending to draw some of the groups closer to the titular leader of the party in the house, Mr. Hunsder, though it is impossible to forecast the result until the public has read and digested Mr. Coolidge's recommendations.

COUNTY WILL DO WORK AT ASYLUM

All Bids of Contractors Rejected by County Building Committee.

Because the lowest price offered by contractors was higher than the county could afford, the improvements on the plumbing and heating system at the county insane asylum and poor farm will be done by the county under the supervision of Supt. Archie Cullen.

All of the bids offered by the contractors two weeks ago were rejected by the county board building committee. The bids were submitted on 12 sections of the work and taking the lowest for each the price was \$49,000. The total amount available for the work is \$35,000. It was said by Al. P. Richardson, Jamesville, a member of the building committee.

The work includes the construction of a boiler room and steam heating plant and a smokestack 125 feet high. New plumbing and heating fixtures and new boilers to be installed are the largest items of expenditure. The work will be pushed to completion, as the improvements have been needed for some time.

Permanent Record of Students Begun at High School

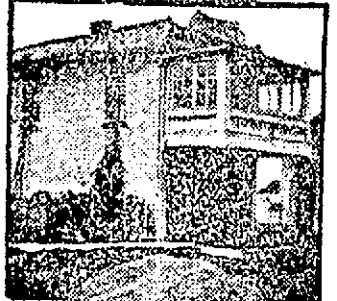

Explanation of a new system of permanent grade records, by which it will be possible for any student who has ever been enrolled in the Jamesville high school, to determine his credits for entry into a university or college, was explained by Prin. W. W. Brown to the senior high school on Wednesday morning.

A filing card contains all information as to the subject taken, in what grade taken, and personal information. It is said that the records are being kept in filing cabinets in the fireproof vault at present, and fireproof filing cabinets which are also to be placed in the next few months.

Similar records are being kept for the junior high school.

In pointing out the advantages of the system, Principal Brown brought out the ease with which alumni organizations might be formed and the valuable records of scholastic and social activity in high school which will make it easy for possibly future high school principals to make recommendations to universities. It was stated that at present, unless some teacher is now in the employ of the local school system, who had known the student, and would recommend the person applying to the principal, no reference would be given, except as to grades.

ENGLAND VOTING FOR PARLIAMENT

Question of Party Supremacy Much in Doubt as Polls Open.

London — The elections of 549 constituencies in Great Britain and Northern Ireland, returning 644 members of parliament, are casting their votes today to decide the country's policy.

Should neither of the three parties obtain a substantial majority at the polls, the ministry formed is expected to hold office for a full term; but if the majority is small, a short life and not a particularly merry one will probably be the lot of the new administration.

Result in Doubt

Winston Spencer Churchill, speaking at Leicester, where he has been engaged in a three-cornered contest, said:

"Of all the ten elections I have fought, this has been the most incalculable."

He hoped to win, but admitted it might be only by a narrow margin, although he said a majority of three or four thousand would not surprise him.

J. H. Thomas, well known labor leader, who has been in parliament a dozen years and is an energetic politician, predicted yesterday the election would end in a stalemate which would produce a constitutional difficulty unprecedented in the history of the country, compelling another election within a few months.

Would Talk Plot

The Evening News said a plot to interfere with the voting in London today has been discovered and that the police are taking steps to prevent its accomplishment. The plot, it was said, was to have been carried out by a group of men, apparently paying great attention to the women voters and radicals in certain sections of the city, have been assigned the task of intimidating the women, who are extremely anti-communistic.

A jury in criminal district court late yesterday found him guilty of murder and assessed his punishment at life imprisonment.

Vexenat gave all details of the slaying. He said he killed Miss Moquette because she had been his fiancée and had later refused to marry him. He declared that he loved the girl.

ACCIDENTAL DEATH: SUICIDE, VERDICT?

Coroner's Jury Will Hold Inquest in Double Tragedy Case.

(SPECIAL TO THE GAZETTE)
Darlington—A verdict of accidental death and suicide is expected to be brought by the coroner's jury, which meets here at 7 p. m. Thursday to hold an inquest into the double tragedy which was caused by firing the bodies of William J. McGowan and his daughter, Mary, near his farm south of Darlington.
The jury summoned by Chief of Police Frank Moran is composed of Isaac Harrier, Richard Frow, Frank Hogan, Thomas Flood, Fred Newman and S. Roy. Six witnesses have been summoned, including District Attorney J. A. Boyle, Dr. H. O. Schuckley and Mr. Moran. No evidence which would bear out other than the theory that the child was killed by accidental explosion of her father's gun, while crawling through a fence, and that McGowan, in his grief, then killed himself, has been found. Mr. Moran told the Gazette Thursday.
A double funeral will be held at 9 a. m. Friday at the Catholic church, Darlington. The Rev. Father Neenan officiating. Burial will be in the Darlington cemetery. Besides a wife and two children, McGowan leaves three brothers, George and Harvey, Darlington, and Frank of Mexico, and a sister, Mrs. Thomas McAdams, Darlington.

DOMESTIC SORROWS COMMONEST CAUSE OF SUICIDE, CLAIM

Hamburg—Unrequited love is not the commonest cause of suicide in Germany. A Hamburg statistician who has investigated 4,000 cases of suicide recently declared that the poetic idea that most suicides are disappointed lovers no longer holds good, if it ever did. Domestic sorrows killed 361 out of the 1,600 cases this investigator looked into. Financial reverses caused 311 deaths and love affairs only 206. Hunger and distress drove 237 to suicide. Neurothenia was the cause given for 237 deaths. Remorse was responsible for 124 and dissipation for 121.

BASKETBALL CAPTAINS TO MEET, THURSDAY

SABOTAGE POWDER DUG UP IN SOUTH

Believed Prepared for War on Draft at Dewar, Oklahoma.

Oklahoma, Okla.—A grim reminder of the war days of 1917 when America was battling its enemies within as well as without, came to light yesterday when road workmen in the south end of this county unearthed a store of dynamite which appeared to have been buried for at least five years.
The discovery recalled the sabotage attempts on the waterworks at Dewar and the sewerage system at Henretta, near here shortly after America's entry into the war. Officials said they had no doubt that radical organizations buried the explosives during the anti-draft uprising in Seminola and Hughes counties.
It was estimated that the cache contained fully 500 sticks of dynamite.
